

Exercise for Session 4

Dear eager participant!

You have heard it all. The voices from the community, the students' perspective, the parents' issues and the administrators' viewpoint. You have also gone through (hopefully) the course material which gives you a fair idea as to how others are doing it.

So, here's your chance to speak.

Let us know your opinion.

Yes, we want to know. What are your expectations? What would you like to do to make educational institutes places which nurture the spirit and expand the mind to make the world a better place?
